Air Horn - 1.4 oz

SKU : NPE0000006

16.95 \$CA

Description:

Take one along while hiking in the woods to deter animals or for emergency signalling if lost. Air Horn is loud enough to be heard up to one mile away and small enough to stow anywhere. Easy to operate push button. Compact size. Meets

USCG Requirements.

Specs:

- 115 dB sound
- Loud enough to be heard up to 1 mile
- USCG Certified
- Up to 70 blasts (1 second blast)
- 1.4 oz. (39 g)

Instructions:

Attach horn to air canister. Depress button to sound the horn. Use short blasts. Pushing the button down and holding will diminish the sound quality and volume level.

All-weather printer paper 11 x 17

AUGER

SKU : BME0000010

305.00 \$CA

This auger's blades are slightly broader and rounder than those of the clay type. They are so to allow the auger to hold moderately cohesive soils. Cohesive soils can easily be removed. The bit is lengthened, allowing augering in stiffer soils.

The T- handle auger is 1.25 metres long and makes a 7cm diameter hole.

Automatic Level

SKU : INT0060910

469.95 \$CA

PRODUCT DESCRIPTION

The compensator of AT-B series incorporates four suspension wires made of extremely high-tensile metal that features minimal thermal expansion coefficient, providing unmatched durability and accuracy even in the harshest environmental conditions. A finely tuned magnetic damping system quickly levels and stabilizes the line of sight despite the fine vibrations present when working near heavy equipment or busy roadways.

The AT-B series can focus on objects at 20cm (7.9in.) in front of the telescope, while previous models provided 50cm or 1m (1.6ft. or 3.3ft.) minimum focusing distance. This feature dramatically facilitates the works in confined spaces.

With an IPx6 rating, the instrument is protected against powerful water jets from all directions, meaning the AT-B series withstands a sudden shower or torrential rainfall. The advanced protection design not only prevents water penetration, but also deters clouding or condensation inside the telescope.

There are three models available depending on your accuracy requirements:

- AT-B4: 24x, 2.0mm accuracy
- AT-B3: 28x, 1.5mm accuracy
- AT-B2: 32x magnification (40x optional), 0.7mm accuracy (0.5mm with an optional micrometer)

(Accuracy specifications are based on 1km double-run levelling.)

BRUNTON 5020 STANDARD TRANSIT 0-360

SKU : BRE0005020

785.95 \$CA

The Brunton Standard Transit retains full functionality of a classic Brunton, but offers the best low-angle strike and dip measurements, enhanced durability, and a sleek new design.

FEATURES:

The flat bottom with a non-slip silicon foot allows for low angle strike and dip measurements.

Designed with durability in mind, the Standard Transit is CNC machined from a nearly indestructible aluminum block while the hard-anodized finish resists scratches that will keep this transit looking brand new for years to come.

The updated needle with a NeFeB disk magnet improves shock resistance and resists demagnetization over time.

Open your beverage at the end of a long field day with an unobtrusive bottle opener that stays out of the way until needed.

The induction dampening makes for a quick-settling needle.

The sapphire jewel bearing allows for smooth needle movement throughout the life of the instrument.

The internal components are sealed with an O-ring for improved water and dust resistance. Note: Brunton Transits are NOT designed for use underwater, but are protected from rain and humidity.

The mirror has a transparent sight for shooting accurate bearings within 1/2°.

Short and long sights provide additional functionality and accuracy when shooting bearings.

A protective leather case is included and the belt attachment makes it easy to carry your Brunton Transit in the field.

SPECS:

Dimensions: 3.1 x 2.8 x 1.3? | 7.9 x 7.1 x 3.4cm

COMPASS BRUNTON

SKU : BRE0000055

575.00 \$CA

Brunton Com-Pro Pocket Transit Professional Compass features a composite material body that makes the ComPro a lighter, more affordable alternative for transit users. The Brunton ComPro Pocket Transit incorporates a cast NdFeB, rare-earth magnet, precisely balanced on a sapphire bearing. The result is a powerful magnet, which seeks magnetic north very quickly and allows for faster readings. Comes with leather belt loop case.

SPECIFICATIONS:

Azimuth accuracy: $\pm 1/2^\circ$ with 1° graduations Vertical accuracy: $\pm 1/2^\circ$ with 1° graduations and 10 minute readability Vertical angle measurement range: To $\pm 90^\circ$ or 100% grade

FEATURES:

Single NdFeB magnet resists demagnetization better than other types of magnets for increased reliability

A percent grade scale with increments of 5%

Induction damped needle for quick, accurate readings

Sapphire jewel bearing allows for smooth needle movement

Magnetic declination adjustment allows for east or west declination setting to 180°

Short and long sights for increased accuracy when sighting azimuth or vertical angles

Precision aligned mirror with convenient "see through" sighting capability
Composite body material is permanently impregnated with colour
O-rings make the Com-Pro waterproof for increased reliability

COMPASS BRUNTON

SKU : BRE0000007

65.00 \$CA

A compact sighting compass with mirror and clinometer provide confidence for advanced navigation and orienteering. **TruArc™ Global Needle tilts up to 20° for balanced use worldwide. Tool-free declination adjustment is simple and fast to orient magnetic north to true north. Meridian lines on vial assist during pre-trip planning when aligning with map grid lines. Inch/millimeter scales for accurate and effective map work. Sighting mirror and sighting line integrated into the cover. Align for the most accurate bearings, whether taking or following a bearing.**

DISTOMETER

SKU : LEI0838725

320.00 \$CA

The D2 offers multiple modes of measurement that are useful for many different kinds of projects: distance, min/max, permanent, stake-out, add/subtract, area, and volume, and it includes painter and Pythagoras functions. An intelligent endpiece enables you to measure accurately from outside or inside corners, including diagonal measurements. The D2 calculates area and volume, and remembers the last 10 measurements taken. And a back-lit LCD screen makes it easy to read while you're on the job. The D2 measures from its base by default and can be configured to measure from the front. You can also flip out the intelligent endpiece to 90° to hook onto outside corners or extend the endpiece fully for inside corners, and it will automatically measure from the endpiece when extended. Combined with the Min/Max function, the endpiece allows you to get the tool all the way into corners for accurate diagonal measurements.

DISTOMETER

SKU : LEI00000X3

530.95 \$CA

The combination of an ultra-rugged design and a 360° tilt sensor enables complex interior measurements in the most demanding environments. Tilt and distance measurement information enables accurate horizontal measurements, even past obstacles. The essential task of documenting and visualizing measurements is

simplified with the DISTO Plan app. All measurement data is easily transferred to smartphones and tablets via Bluetooth® Smart technology.

DOG DETERRENT

SKU : WFE0005022

16.95 \$CA

To deter dogs & coyotes from attacking humans. For use when walking, jogging, hiking and biking or whenever enjoying the great outdoors.

Depress actuator tab for a burst of spray to a maximum range of 3.5 meters. This product provides approximately 14 one second bursts of spray.

Double Ball with Plate.

SKU : GME0000148

39.70 \$CA

Consists of a medium length B size 1" double socket arm, one 2.5" diameter round ball base, and one diamond ball base (both bases feature the universal

AMPS hole pattern). The ball and socket system provides shock and vibration damping, and allows for near-infinite adjustability to achieve an ideal viewing and operating angle of your device. Made of Powder-coated, marine-grade aluminum for durability and reliability in the most demanding marine environments.

Double Slopes Laser

SKU : GEO0000200

Contact us

Description

Laser Geomax Zone 60HG Double Slopes Semi-Automatic:

Combining a state-of-the-art, easy-to-use keypad, the 60HG is a semi-automatic dual-slope laser offering $\pm 8\%$ in both axes. Thanks to the screen adjustments, the inclinations are clearly visible and allow simple and intuitive use. Zone60 HG is designed for exterior applications and is an ideal partner for concrete as well as formwork.

Easy slope adjustment

For contractors who need to constantly check concrete height to ensure optimal grading, the Zone60 HG solves their problem by providing accurate and reliable references in conjunction with GeoMax receivers. For those who need to level the base to obtain a constant slope from the street to the house, the laser allows automatic operation in the horizontal plane and therefore takes over the main work of the contractor. The slope can be easily set to the required slope.

Monitor performance

With the slope function, changes in weather and temperature are frequently monitored to ensure accurate performance.

Specifications:

IP67

Alkaline battery (60 hours)

Rechargeable battery pack (40 hours)

Electronic Measuring Wheel

SKU : CHA0000210

469.00 \$CA

The MP401E is Keson's only electronic wheel with a steel frame. It is the world's sturdiest electronic measuring wheel and the easiest and most comfortable to use. It will stand up to the harshest conditions.

SWAN-NECK ERGONOMIC HANDLE

Our patent-pending "thumb-up" grip ensures less wrist strain and superior control.

RELIABLE INPUT SYSTEM: MAGNETIC SENSORS

Dust, dirt and other particles can disrupt a light beam used in competitive units. Our magnetic pick-up avoids these problems.

SEALED COUNTER ENCASEMENT

Designed to NEMA Class II standards, our counter housing ensures that it will not be damaged by rain. What's more, you can safely clean the entire wheel with a damp cloth.

COUNTER SIZE AND PLACEMENT

Our easy-to-read digital counter is in the most protected spot on the wheel. With the handle up, it is nearly impossible for the counter to come into contact with the ground. With the handle down, the roll bar offers solid protection. Counter requires 2 AA batteries (not included).

FENIX 3000 lumens high-output rechargeable flashlight 405 meters maximum beam distance model PD40R

Flashlight

SKU : FEN00LR35R

287.95 \$CA

The Fenix LR35R is a super bright searching flashlight that blasts a max output of 10000 lumens and a max beam distance of 500 meters. This 10000 lumens flashlight can be quickly charged with the two included 4000 mAh Li-ion power batteries via the USB Type-C port. The amount of light that the Fenix LR35R flashlight emits is truly remarkable, a wide beam angle and strobe function are quite ideal for Search and Rescue. Extremely small for a flashlight with this much power, only 5.5" long plus a flat light body, this flashlight is the perfect tool for exploring and search and rescue. The battery level indicator lets you know the status of your batteries. Additional features include intelligent memory circuit, lockout function and IP68 rated protection. Once you see the raw power of a 10000-lumen flashlight, you will never feel troubled at night adventures, such as searching, caving, patrolling, etc.

Flashlight

SKU : FENBC35R

197.25 \$CA

The Fenix BC35R is a USB rechargeable bike light specifically built for the urban environment. This light features an innovative visual cut-off facula line which blocks off the top of the light beam so you won't blind oncoming traffic. The OLED screen displays current output and corresponding runtime so you are constantly aware of the light's status. Built-in anti-theft device that smartly monitors users' bike movement that will set off an alarm. Additional features include built-in 5200mAh Li-ion battery, USB rechargeability, and remote pressure switch operation.

Rugged GPS Handheld and Satellite Communicator with Garmin TOPO Mapping

- Large 3" sunlight-readable color display for easy viewing
- Trigger an interactive SOS to the GEOS 24/7 search and rescue monitoring center; two-way messaging via the 100% global Iridium® satellite network (satellite subscription required)
- Preloaded Garmin TOPO mapping with direct-to-device BirdsEye Satellite Imagery downloads (no annual subscription); includes multiple Global Navigation Satellite Systems (GNSS) support and navigation sensors
- Cellular connectivity lets you access Active Weather forecasts and Geocaching Live
- Compatible with the Garmin Explore™ website and app to help you manage waypoints, routes, activities and collections, use tracks and review trip data from the field
- Internal, rechargeable lithium battery provides up to 35 hours of battery life in 10-minute tracking mode; 200 hours in Expedition mode with 30-minute tracking intervals

Precise Garmin navigation meets global communication in the GPSMAP 66i premium GPS handheld with inReach® satellite technology.

Built for Tough Treks

The sturdy, button-operated GPSMAP 66i features a large 3" color display you can see even in bright sunlight. If you're out in the field for long stretches of time, you can turn on Expedition mode and get up to 200 hours of battery life while using inReach technology. In the default tracking mode, you get up to 35 hours of battery life, and your device will save your location every 10 minutes.

Satellite Communication

Staying in touch is vital, even on less challenging trips. Using inReach technology (subscription required), this handheld lets you trigger an SOS to the GEOS 24/7 emergency response team for interactive support in an emergency. It also enables two-way messaging and LiveTrack location sharing via the 100% global Iridium satellite network, so you can stay in contact with loved ones, teammates, headquarters and more.

Navigate with Confidence

GPSMAP 66i is fitted with the best in Garmin navigation. Preloaded Garmin TOPO mapping provides detailed views of terrain contours, topographic elevations, summits, parks, coastlines, rivers, lakes and geographical points. Direct-to-device downloads of BirdsEye Satellite Imagery provide high-resolution photo-realistic views of your route, trailheads, clearings and more — without an annual subscription. Support for multi-GNSS combined with altimeter, barometer and compass navigation sensors lets you track and navigate in challenging environments.

Weather Anywhere

Wireless Cellular connectivity lets you access Active Weather for up-to-date forecasts, including predictive maps for temperature, wind, precipitation and clouds — right on the handheld when connected to Garmin Connect Mobile.

Pair with Your Mobile Device

The free Garmin Explore mobile app lets you plan, review and sync data, including waypoints, routes, activities and collections. Review completed activities while still in the field, even when you're off the grid. The app also lets you sync your GPSMAP 66i with your compatible mobile device so you can access unlimited maps, aerial imagery and U.S. NOAA charts. You can even use all of the inReach features on your paired mobile device. For easier messaging, you can access your phone's contact list from the Garmin Explore app to connect with fewer keystrokes. Plan for future trips and review previous activities from the Garmin Explore website.

Half Facepiece Respirator

SKU : TTE0006500

36.54 - 41.06 \$CA

Description

- w/Quick Latch Drop-Down Feature
- Provides comfort and stability with a soft but firm silicone face seal
- Resilient material extends product life
- Maintains its shape in high heat environments
- Overmolded, low-profile design simplifies cleaning and maintenance with fewer parts and crevices, and provides a wide field of view
- Valve cover design directs exhaled breath and moisture downwards, and facilitates a positive pressure seal check
- 3M (TM) Cool Flow (TM) Exhalation Valve enhances comfort by reducing heat and moisture, and allows for easier breathing
- Adjustable head harness assembly provides optimum fit and comfort with a three-size adjustable head cradle
- Quick latch drop-down mechanism allows for easy on and off as workers move in and out of contaminated areas – no need to remove your hard hat, eyewear or faceshield
- NIOSH approved

**CUTTING DEPTH, MAX 5.7in BLADE DIAMETER,
MAX 14.21in WATER PRESSURE, MAX 87psi
WEIGHT 16.31lbs**

PRODUCT DESCRIPTION

K?1 PACE high power battery cutter has the power and performance you expect from equivalent petrol-powered cutters. Equipped with X-Halt™ brake function for operational safety. Ergonomic and user-friendly with low vibrations, optimally balanced machine and zero CO? emissions during use. With built-in connectivity so you can easily monitor machine location, runtime, service intervals and receive wireless updates through FOTA (firmware over the air). Powered by Husqvarna PACE battery system with high power and fast charging for impressive productivity and a well-suited match with our specially designed battery blade range for maximized cutting depth and optimized performance. Suitable for concrete pipes, concrete garden plates, cinder blocks etc.

- Once the battery is discharged, it will take 30 minutes to recharge it to 80% and 45 minutes to recharge it to 100%,
- The battery lasts 30 feet on a full charge, or the equivalent of a full tank of petrol, and is also good for a minimum of 1500 charges

Laser Zone20H

SKU : GEO0000100

Contact us

- The powerful GeoMax Zone laser rotators portfolio offers the right construction tools for all trades and applications. Regardless if you're just starting in the industry dealing with the fundamentals or you're a seasoned professional handling complicated applications, GeoMax laser rotators are ready to work when you do.

Choose the perfect laser for your levelling, aligning or grading application from one of the best laser rotator portfolios in the market.

Solid-built and dependable in any element, these lasers ensure long-lasting operations thanks to multiple charging options and offer interchangeable accessories.

Zone20 H is an economic and firm entry level laser rotator. With a solid-built housing and a straightforward interface, this laser offers all functions needed for regular and flexible use. Zone20 H is an automatic horizontal laser that allows grade setting manually in two axes. It is easy to use and highly reliable in any element.

Tough and simple to use

The Zone20 H complies with the IP67 class of water and dust protection due to its solid-built housing as well as the glass cage. The rubber molded handles and bumpers provide great protection and easy grip. With its unique Li-Ion battery concept, the laser has 300 per cent greater lifetime than with NiMh batteries. It is fully charged in five hours only, which keeps the laser's downtime to a minimum. With only four buttons, as well as an informative LED-indication on the laser, the device is very simple and easy to use for everybody. Information regarding battery and tool status can be quickly obtained.

Reliable operation

The Zone20 H is the ideal product for outside applications, such as concrete as well as formwork. As contractors need to constantly check the height of the concrete to ensure optimum levelling, Zone20 H solves this by allowing reliable operation. Thanks to the possibility to enter grades manually, contractors with occasional need for simple slopes like driveways and landscaping will get the most out of the Zone20 H.

Accurate to 1/10 of a degree, the Digital Angle Level runs for about 400 hours on a single 9 volt battery, has an automatic shut off after 6 minutes and a low battery indicator. Displays degrees, slope (%) and pitch (in/ft) with arrows to show the direction to move towards level.

Simple one minute recalibration and hold feature locks the reading on the display. Display rotates upside down with level and audible indicator beeps when you reach level. This level can be mounted into most levels with an oval shaped slot to give a wider base and more accurate reading.

Ideal for gardening, fishing, camping and hunting! The jacket permits you to enjoy the outdoors with freedom and without worrying about insects! In terms of comfort, the jacket offers optimal ventilation and excellent visibility. With its double net protection on the back, you are really protected from insect bites and mosquitoes. Your hands are equally well protected and the movement of your fingers are not hindered. Of a superior quality, this jacket resists insect repellents.

The pants are also available BGE0000030

Pipeline Laser

SKU : GEO0000300

Contact us

GeoMax pipeline lasers are compact and robust, fully featured and ensure consistent precision and accuracy. Thanks to a functional and versatile configuration as well as a wide range of features and a robust design, the Zeta pipe laser series meets all your needs.

Increased productivity

Increase productivity with fast automatic target leveling and alignment, plus cross-axis compensation.

Maximum flexibility

GeoMax pipe lasers accommodate a wide range of accessories, with long-distance remote control and safe, versatile charging options.

Maximum visibility

Zeta125 green pipe lasers deliver a four times brighter beam for optimal visibility in almost all working conditions.

Optimal robustness

IP68 certified to withstand immersion and featuring an all-metal housing, the Zeta125 is built to last.

Maximum precision

Perform your work without making mistakes, regardless of the situation and environmental conditions.

Maximum security

With the unique vertical alignment of the Zeta125S or Zeta125SG, you can safely determine the direction of the pipe from outside the trench.

This Measuring Pole is great when you want to measure from the ground up to the underside of something tall. Exact measurements of up to 8 meters on the metric version) are conveniently read on the enclosed sealed counter. The counter is mounted to the bottom tier so it remains down closer to you so you can read the measurements. The top tier extends up in sections one at a time until it “bumps” or hits underneath what you are measuring. Once extended, you simply read the counter and take your measurement, then you retract the pole. The top tier has a metal flip-out feeler or stop that you can put up against what you are measuring to. This tool is great for measuring underneath bridges, overhangs, utility lines, telephone poles, ceilings, and more.

- **Features:**

- Rugged fiberglass construction with excellent tensile strength
- Compact and easy carrying: Only 4’-8’ long when closed
- Lightweight: Less than 5 pounds for easy carrying
- Smooth telescoping movement with friction clamps for no-slip extension
- Includes Soft Case
- Bright yellow color for safety
- Includes Manufacturers 90 Day Warranty

15.44 \$CA

- Durability: Utility
- Blade Material: Stainless Steel
- Adjustable blade positioning design which allows for 4 cutting points on a single-edge utility blade
- Versatile, it features a 5/32" (4mm) throat inlet to cut through a variety of materials and a stainless steel tape splitter for box tape slitting
- Highly productive, it delivers 4x's more cuts than a single-edge, fixed blade "gooseneck" safety knife
- Uses the OLFA SKB-10 blade, a single-edge blade featuring 1 blunt edge for safer handling
- Acetone resistant for easy cleaning
- Fits both right and left-handed users with no blade adjustment necessary
- Tool-free blade change

Safety light

SKU : PF210M-R-Y

126.75 \$CA

With Powerflare units, there are no health or environmental concerns. There is no smoke to inhale, no residue. No worry about no fire to extinguish, and we are utilizing a device that provides better visibility. Making it safer for the police officers and the public.

For vehicle breakdown, traffic control, rescue signal, boating/marine, scuba diving, tactical police & military operations, helicopter landing zones, power

blackouts, earthquakes, hurricanes, disasters and other emergencies.

SAFETY LOCK FOR GPS

SKU : GME0000022

15.74 \$CA

The RAP-S-KNOB3U consists of a 1/4"-20 female threaded security knob and key knob. The RAP-S-KNOB3U replaces all knobs on 1" diameter B size arms and mounts. The RAP-S-KNOB3U offers the ideal amount of leverage to properly tighten your mount to prevent slippage in heavy chop or in extreme vibration environments. With an emphasis on aesthetics and function, the RAP-S-KNOB3U is low in profile and only adds a small amount of additional bulk to your system when compared to the standard knob included. At a fraction of the cost of currently available keyed locking knobs, the additional peace of mind and tamper resistance comes at a very affordable price. The RAP-S-KNOB3U is the perfect accessory for keeping your mounted electronic device safe from theft and tampering.

Survival Kit

SKU : CGE1000001

29.95 \$CA

Priorities in a survival situation: escape the elements, stay warm, and signal rescuers so you're easy to find. The Scout has you covered on all fronts: a heat-reflective 2-person survival blanket provides warmth and shelter from wind, rain, and snow, while the one-hand operable Fire Lite™ striker and waterproof tinder produce multiple campfires. A 100dB Slim Rescue Howler™ rescue whistle and Rescue Flash™ signal mirror with retro-reflective aiming aid make it easy for you to signal your position to rescuers, and a compass, duct-tape and fishing/sewing kit round out the package. A professional-grade RF-welded waterproof bag keeps contents dry in any conditions.

Kit Includes:

- 1 – Duct Tape, 2? x 50?**
- 1 – Compass, Button, Liquid Filled**
- 1 – Fire Lite™ Sparker**

- 1 – Survival Fishing and Sewing Kit
 - 1 – Survive Outdoors Longer Survival Blanket 96" x 60"
 - 1 – Mini Rescue Flash™ Signal Mirror
 - 1 – Slim Rescue Howler™ Whistle
 - 1 – Tinder Quik™

Toyotomi Laser-731

SKU : SEF0000731

3 500.00 \$CA

Product Description

The Toyostove Laser 731/732 replaced the iconic Laser 730 and Laser 73 with a brand new refreshed look but still with the same great operation. The Laser 731 is able to offer all the comfort a central heating unit would provide but at the fraction of the cost and space! This unit operates on K-1 Kerosene, No 1 Low Sulfur Fuel Oil, or Ultra Low Sulfur Heating Oil/Ultra Low Sulfur Diesel. The new style wall flue pipe helps make venting to exterior simple and easy. The piping is completely flexible and it adjusts to wall thickness. All you will see is a small vent cap on the outside.

The Toyotomi units were able to offer green energy for over 40 years, way before green was even a thing. They are able to offer the most fuel efficient, energy saving, heating systems available which allow you to use up to 50% less fuel for heating the same area. The easy to install vented heating systems do not require a chimney, ductwork, plumbing or electrical work. In addition to your main house, the Toyotomi direct vent heating systems are ideal heat sources for garages, basements, summer homes, hunting cabins, are now certified for mobile homes and manufactured housing.

Features

- 15,000 to 40,000 BTU
- WIFI Compatibility
- Compact Size
- Contemporary Design
- 4 Burner Modes (Includes Off)
- Safety "Shut-Off" System
- Programmable Weekly Timer with up to 30 Different On/Off Intervals
- Power Failure Recovery
- Cool to the Touch Top and Side Panel Cabinet
- Display Room Temperature, Set Temperature and Error Code
- Automatic Ignitor Cleaning System
- Only 2-3/4" Hole Needed in Wall for Flue Pipe
- Whisper Quiet Operation
- Easy Installation as Direct-Vent System Requires no Chimney or Special Ductwork

Specifications

Model Toyostove Laser 731/732 Vented Heating System

Fuel Type:	Ultra Low Sulfur Heating Oil (ULSHO), Ultra Low Sulfur Diesel Fuel (ULSD) (ASTM D975 S15), Low Sulfur No.1 Fuel (ASTM D396 S500), Or K-1 Kerosene (ASTM D3699)

Water Resistant Pouch Set

SKU : CGE0000350

12.95 \$CA

Strong vinyl pouches with hook and loop closures.

Contains: 1- 5" x 7" (12.5 x 18 cm), 1 – 7" x 10" (18 x 25 cm), 1 – 10 1/2" x 13 1/2" (27 x 34 cm)

Instructions:

1. After enclosing your items in the pouch. use the seams as a guide to fold over the top of the pouch three times.
2. If folded properly, the two hook-and-loop strips will be aligned and facing each-other.
3. Firmly press the hook-and-loop strips together to seal the pouch.

Caution: These bags were not designed or intended for submerged use. They are intended to keep gear dry in conditions such as rain, heavy dew, spray or splashing. Properly closed it will also keep water out in a quick immersion. Do not store electrical, photographic, or optical equipment in these bags as damage to these types of items could result. Coghlan's will not replace or reimburse the value of the contents placed inside the pouch.
